PERMISSIBLE FIREWORKS ORDINANCE
TANNERITE ORDINANCE
Possession, Use, and Discharge of NH Permissible (Consumer) Fireworks and Tannerite in the town of Antrim

PURPOSE

The primary intent of this Ordinance is to protect the health of human (both physiological and psychological), animals (domestic and wild), water bodies, structures, and undeveloped land, from the inherent dangers associated with the display of incendiary materials; the refuse discharge from these displays, along with preventing unwanted disturbances attributable to loud bangs and other noises associated with fireworks.

Definitions:

Permissible Fireworks, as established for sale to the general public in the State of New Hampshire also known as “class C fireworks,” which are common fireworks, and firecrackers sold for consumer use. Consumer fireworks include: shells and mortars, multiple tube devices, Roman candles, rockets, sparklers, firecrackers with no more than 50 milligrams of powder. The display of permissible fireworks shall be performed in a manner that does not create an unsafe condition.”

Tannerite, is a brand of binary explosive targets used for firearms practice and sold in kit form. The targets comprise a combination of oxidizers and a fuel, primarily aluminum powder, that is supplied as two separate components that are mixed by the user. The legal use of Tannerite targets are for a shot indicator only
